

Pet Friendly Rentals

Helping Australian pet owners find rental properties.

Media Release – 12 February 2009 (2 pages)

PET RESUMÉ SYSTEM RELEASED

Anyone searching and applying for rental properties that allow pets in the current market can attest to how difficult there are to find, let alone get approved for. Therefore, pet owners need to be doing everything right to give themselves the best possible chance of getting the rental they're after.

Now thanks to the Pet Resumé System developed by Pet Friendly Rentals together in partnership with the Petcare Information and Advisory Service, pets and their owners can put their best paw and foot forward in each application.

While there are numerous written guides for creating a pet resumé, Pet Friendly Rentals has gone one step further and created an easy to use system that enables anyone with an internet connection to produce a highly effective and very professional looking document quickly and easily.

“Our research with pet owners and property managers has told us how important pet resumé were in the rental application process, there just needed to be an easy way to create them”, says Ryan Blunden, founder of Pet Friendly Rentals.

“By using our user friendly online system, people can create and print their pet resúmes in a fraction of the time it would normally take, increasing their chances of being selected with minimal additional effort. Plus, no desktop publishing skills or software is required. Our website takes care of everything, including saving your resúmes for future use.”

Pet resúmes are an essential tool to highlight your pet's best qualities, demonstrate your commitment to responsible pet ownership, as well as provide all the details property managers will want to know about people's pets. Now that Pet Friendly Rentals has made it so easy, hopefully everyone will create a resumé for their pet at <http://www.petfriendlyrentals.com.au>, improving their chances of being that lucky selected tenant!
